ABSTRACT

This is a report of the enrollment, capacity, and utilization of New York City Board of Education school buildings for the 1978-1979 school year. The report is divided into three sections: utilization of elementary schools, utilization of junior high schools (by district), and utilization of high schools (by borough). For each school the following data are presented: (1) number of each school, (2) grade span contained in each school, (3) building type, (4) Title I status, (5) register of all grades, (6) register of regular grades, (7) capacity of regular grades, (8) utilization of regular classes, (9) overload/underload of regular classes, (10) register of Kindergarten and special grades, (11) capacity of Kindergarten and special grades, (12) overload/underload of Kindergarten and special classes, (13) total capacity of each school, and (14) percentage rate of utilization of each total school building. SEPTEMBER 1979

Following is a report of the enrollment, capacity and utilization of New York City Board of Education School Buildings for the 1978-1979 school year. Enrollment and capacity data are as of October 31, 1978.

The report is divided into three sections:

1. Utilization of Elementary Schools,
2. Utilization of Junior High Schools,

Within each section data are presented for each school by district, and

3. Utilization of High Schools by borough.

For each public school within the City of New York the following data is presented:

**School** - The number of the school.

**Organization** - The grade span contained within each school.

**Building Type** - A, C, AC, etc. - Construction materials.

**Title 1 Code** - Designation of Title 1 Status
X = Title 1 School
No Entry = Non Title 1 School

**Register** (All Grades) - The October 31, 1978 register of all grades in the school including Kindergarten and Special Education pupils.

**Register** (Regular Grades) - The October 31, 1978 register of the school excluding Kindergarten and Special Education.

**Utilization of Regular Classes** - The October 31, 1978 register of regular grades divided by the October 31, 1978 capacity of regular grades.

**Overload(+) Underload(-)** - The overload is the number of pupils enrolled in regular grades (excluding Kindergarten and Special Education) in the school who exceed the capacity of regular grades in that school. The underload is the number of available seats for regular grade pupils (October 31, 1978 regular grade capacity minus October 31, 1978 regular grade register.)

**Register** (Kindergarten and Special Grades) - The October 31, 1978 register of the Kindergarten and Special Education classes only.

**Capacity** (Kindergarten and Special Grades) - The October 31, 1978 Kindergarten and Special Education pupil capacity.

**Overload(+) Underload(-)** - The overload of Kindergarten and Special Education pupils is the number of Kindergarten and Special Education pupils who exceed capacity for Kindergarten and Special Education pupils in the school. The underload is the number of available Kindergarten and Special Education seats in the school. (October 31, 1978 Kindergarten and Special Education Capacity minus the October 31, 1978 register of Kindergarten and Special Education classes.)

**Total Capacity** - The total October 31, 1978 capacity of the school (capacity of regular grades plus capacity of Kindergarten and Special Education classes).

**Utilization** - The percentage rate of utilization of the total school building computed by dividing the October 31, 1978 register of all grades by the October 31, 1978 total capacity.

The preparation of this annual report is being conducted by the Demographic Analysis Unit of the Office of Educational Statistics. The capacity of each elementary and intermediate/junior high school is redetermined each year after consideration of the following factors: 1) the survey of each school's instructional space as of October 31 of the school year, 2) the enrollment of the school as of October 31 of the school year, 3) the special programs and services that are either housed in or provided by the school, and 4) the number of rooms in the building which are available and useable for instruction. High school capacities in the volume have been calculated by the Office of High Schools. The formula for the calculation of capacity was developed by a Committee representing the Board of Education, the Department of City Planning, and the Bureau of the Budget. The project was conducted under the supervision of Mr. Marvin Jacobs, Coordinator of the Demographic Analysis Unit. Compilations of data and computations of elementary and middle school capacity were under the control of Mr. Melvin G. Nelson.

We are indebted to Mr. James Greller and Mrs. Sarita Tomchinsky for the preparation of the cover and graphic material used in this report, and to Miss Mary Di Bari for her expertise in preparing the typewritten copy for publication.

The methodologies for determining the size of elementary schools, junior high schools and intermediate schools utilized in this volume are described briefly below.

## DETERMINING THE CAPACITY AND UTILIZATION OF ELEMENTARY SCHOOLS

1. From the total number of instructional rooms in the building, a number of rooms to be used for special activities and services is deducted in accord with the schedule that follows. These rooms are not included in capacity calculations.

   (a) In Title I (special service) schools, 4 rooms are subtracted for these purposes if the enrollment of the school, excluding children in Kindergartens, is more than 1200; 2 rooms are subtracted if the school's enrollment, exclusive of children in Kindergartens, is between 500 and 1200; 1 room is deducted if the enrollment, exclusive of children in Kindergartens, is less than 500.

   (b) In Non-Title I (non-special service) schools, 2 rooms are subtracted for these purposes if the enrollment of the school, excluding children in Kindergartens, is more than 1200; 1 room is subtracted if the school's enrollment, exclusive of children in Kindergartens, is between 500 and 1200; no deduction is made if the enrollment, exclusive of children in Kindergartens, falls below 500.

2. The number of rooms used by Kindergartens (and Pre-Kindergartens) and the number of rooms used by Mentally Handicapped classes, Emotionally Handicapped classes, Physically Handicapped classes, and Doubly Handicapped classes are subtracted from the remaining number of instructional rooms in the building.

3. The number of rooms now remaining are multiplied by 29 in Title I schools, and by 31 in Non-Title I schools. This determines the capacity of facilities available for use by regular classes, exclusive of Kindergartens and special classes (see Column 7 in the summary report which follows herewith). In cases where children who would normally attend Title I schools are enrolled in Non-Title I schools, the capacity of the receiving schools is reduced by an amount statistically related to the number of Title I children involved. The amount by which the capacity of such Non-Title I schools is reduced is determined by multiplying the number of Title I children by the factor .009.

4. The enrollment of the school, exclusive of children enrolled in Kindergartens (Pre-Kindergartens) and special classes (listed in 2, above), is then compared with capacity of facilities available for use by regular classes (see Column 7 of Report). The ratio of enrollment to capacity determines that rate of utilization (Column 8). The difference between enrollment and capacity determines the overload or underload (Column 9). It is important to note that Columns 6, 7, 8, and 9 relate solely to regular classes using regular classrooms.

5. To determine the capacity of facilities used by Kindergartens (Pre-Kindergartens), and special classes, the schedule which follows is applied.

| Facility | Room Capacity |
|---|---|
| (a) Single-Unit Kindergarten | 45 |
| (b) Double-Unit Kindergarten | 90 |
| (c) Pre-Kindergarten | 30 |
| (d) Mentally Handicapped | 15 |
| (e) Emotionally Handicapped | |
| Pre-Placement | 10 |
| Transitional | 10 |
| "A" Centers (Severe Emotional Disturbance) | 10 |
| "B" Centers (Moderate Emotional Disturbance) | 12 |
| (f) Physically Handicapped | |
| Health Conservation | 10 |
| Visually Handicapped | 10 |
| Hearing Impaired | 10 |
| Brain Injured (H.C.30) | 10 |
| (g) Doubly Handicapped | |
| Brain Injured – Emotionally Handicapped | 10 |
| Readiness | 10 |
| Doubly Handicapped-CRMD | 12 |
| Language & Hearing Impaired | 10 |
| (h) Non-English Speaking | 25 |

The total represents the capacity of facilities used by Kindergartens (Pre-Kindergartens) and special classes (Column 11 of Report).

6. The enrollment of children in Kindergartens (Pre-Kindergartens), and special classes listed in 5, above, (see Report, Column 10) is then compared with the capacity of facilities used by these classes (see Column 11). The difference between enrollment and capacity indicates the overload or underload (Column 12). It should be noted that Columns 10, 11, and 12 relate solely to Kindergartens (Pre-Kindergartens) and special classes.

7. The total capacity of the school building is determined by adding the capacity of facilities available for use by regular classes (Column 7) to the capacity of facilities used by Kindergartens (Pre-Kindergartens) and special classes (Column 11). The total capacity of the building is given in Column 13 of the Report. The capacity excludes Library, Gym, Auditorium, Lunchroom, Remedial Rooms (½ unit).

## DETERMINING THE CAPACITY AND UTILIZATION MIDDLE SCHOOLS

### I – JUNIOR HIGH SCHOOLS

Middle schools from which the 9th Grade has not been removed are identified as junior high schools

### A – TITLE I JUNIOR HIGH SCHOOLS

a. In computing the capacity of Title I junior high schools, standard classrooms are assigned a value based on the average class size in the Title I middle schools servicing each Community School District as originally determined by the Office of Junior High Schools in 1970 and subsequently adjusted in 1971. In no instance, however, does the assigned value exceed 31.

b. No capacity is assigned to shops except for Clothing or Needle Arts; Child Care (Home Nursing); Millinery and Novelty; Family Living; Home Economics-Clothing room. The five facilities listed herein are assigned the same value as standard classrooms.

c. No capacity is assigned to typewriting rooms, band rooms, gymnasium, lunchroom, auditorium or library.

d. The capacity assigned to facilities used by special classes is:

| Facility | Room Capacity |
|---|---|
| (1) Mentally Handicapped | 18 |
| (2) Emotionally Handicapped | |
| Pre-Placement | 10 |
| Transitional | 10 |
| "A" Centers (Severe Emotional Disturbance) | 10 |
| "B" Centers (Moderate Emotional Disturbance) | 12 |
| (3) Physically Handicapped | |
| Health Conservation | 15 |
| Visually Handicapped | 15 |
| Hearing Impaired | 15 |
| Brain Injured | 15 |
| (4) Doubly Handicapped | |
| Brain Injured-Emotionally Handicapped | 10 |
| Doubly Handicapped-CRMD | 12 |
| Language and Hearing Impaired | 15 |
| (5) Non-English Speaking | 25 |

e. A fixed percentage is added to home-room capacity to reflect the use of auxillary facilities and shops according to the schedule which follows:

In buildings with 9 or more shops --- 8%
In buildings with 7 or 8 shops --- 6%
In buildings with 6 or fewer shops --- 4%

### B - NON-TITLE I JUNIOR HIGH SCHOOLS

a. In computing the capacity of Non-Title I junior high schools, standard classrooms are assigned a value based on the average class size in the Non-Title I middle schools servicing each Community School District as originally determined by the Office of Junior High Schools in 1970 and subsequently adjusted in 1971. In no instance, however, does the assigned value exceed 31.

b. No capacity is assigned to shops except for Clothing or Needle Arts; Child Care (Home Nursing); Millinery and Novelty; Family Living; Home Economics-Clothing Room. The five facilities listed herein are assigned the same value as standard classrooms.

c. No capacity is assigned to typewriting rooms, band rooms, gymnasium, lunchroom, auditorium or library.

d. The capacity assigned to facilities used by special classes is:

| Facility | Room Capacity |
|---|---|
| (1) Mentally Handicapped | 18 |
| (2) Emotionally Handicapped | |
| Pre-Placement | 10 |
| Transitional | 10 |
| "A" Centers (Severe Emotional Disturbance) | 10 |
| "B" Centers (Moderate Emotional Disturbance) | 12 |
| (3) Physically Handicapped | |
| Health Conservation | 15 |
| Visually Handicapped | 15 |
| Hearing Impaired | 15 |
| Brain Injured | 15 |
| (4) Doubly Handicapped | |
| Brain Injured-Emotionally Handicapped | 10 |
| Doubly Handicapped-CRMD | 12 |
| Language and Hearing Impaired | 15 |
| (5) Non-English Speaking | 25 |

e. A fixed percentage is added to home-room capacity to reflect the use of auxiliary facilities and shops according to the schedule which follows:

| | | |
|---|---|---|
| In buildings with 9 or more shops | --- | 10% |
| In buildings with 7 or 8 shops | --- | 8% |
| In buildings with 5 or 6 shops | --- | 6% |
| In buildings with 4 or fewer shops | --- | 4% |

f. In cases where children who would normally attend Title I schools are enrolled in Non-Title I schools, the capacity of the receiving schools is reduced by an amount statistically related to the number of Title I children involved. The amount by which the capacity of such Non-Title I schools is reduced is determined by multiplying the number of Title I children by the factor .069.

## II – INTERMEDIATE SCHOOLS

Middle schools from which the total 9th Grade has been removed are identified as intermediate schools.

### A – TITLE I INTERMEDIATE SCHOOLS

a. In computing the capacity of Title I intermediate schools, standard classrooms are assigned a value based on the average class size in the Title I middle schools servicing each Community School District as originally determined by the Office of Junior High Schools in 1970 and subsequently adjusted in 1971. In no instance, however, does the assigned value exceed 31.

b. No capacity is assigned to shops except for Clothing or Needle Arts, Child Care (Home Nursing); Millinery and Novelty; Family Living; Home Economics-Clothing room. The five facilities listed herein are assigned the same value as standard classrooms.

c. No capacity is assigned to typewriting rooms, band rooms, library, gymnasium, lunchroom, auditorium (except for one convertible sub-division where used as a Choral room and assigned the same value as a standard classroom).

d. The capacity assigned to facilities used by special classes is:

| Facility | Room Capacity |
|---|---|
| (1) Mentally Handicapped | 18 |
| (2) Emotionally Handicapped | |
| Pre-Placement | 10 |
| Transitional | 10 |
| "A" Centers (Severe Emotional Disturbance) | 10 |
| "B" Centers (Moderate Emotional Disturbance) | 12 |
| (3) Physically Handicapped | |
| Health Conservation | 15 |
| Visually Handicapped | 15 |
| Hearing Impaired | 15 |

(3) Continued

| Facility | Room Capacity |
|---|---|
| Brain Injured | 15 |
| (4) Doubly Handicapped | |
| Brain Injured-Emotionally Handicapped | 10 |
| Doubly Handicapped-CRMD | 12 |
| Language and Hearing Impaired | 15 |
| (5) Non-English Speaking | 25 |

e. No percentage is added for shops and auxiliary facilities as in the case of junior high schools.

B – NON-TITLE I INTERMEDIATE SCHOOLS

a. In computing the capacity of Non-Title I intermediate schools, standard classrooms are assigned a value based on the average class size in the Non-Title I middle schools servicing each Community School District as orginally determined by the Office of Junior High Schools in 1970 and subsequently adjusted in 1971. In no instance, however, does the assigned value exceed 31.

b. No capacity is assigned to shops except for Clothing or Needle Arts; Child Care (Home Nursing); Millinery and Novelty; Family Living; Home Economics-Clothing room. The five facilities listed herein are assigned the same value as standard classrooms.

c. No capacity is assigned to typewriting rooms, band rooms, library, gymnasium, lunch room, auditorium (except for one convertible sub-division where used as a Choral room and assigned the same value as a standard classroom).

d. The capacity assigned to facilities used by special classes is:

| Facility | Room Capacity |
|---|---|
| (1) Mentally Handicapped | 18 |
| (2) Emotionally Handicapped | |
| Pre-Placement | 10 |
| Transitional | 10 |
| "A" Centers (Severe Emotional Disturbance) | 10 |
| "B" Centers (Moderate Emotional Disturbance) | 12 |

| | |
|---|---|
| (3) Physically Handicapped | |
| Health Conservation | 15 |
| Visually Handicapped | 15 |
| Hearing Impaired | 15 |
| Brain Injured | 15 |
| (4) Doubly Handicapped | |
| Brain Injured-Emotionally Handicapped | 10 |
| Doubly Handicapped-CRMD | 12 |
| Language and Hearing Impaired | 15 |
| (5) Non-English Speaking | 25 |

e. No percentage is added for shops and auxiliary facilities as in the case of junior high schools.

f. In cases where children who would normally attend Title I schools are enrolled in Non-Title I schools, the capacity of the receiving schools is reduced by an amount statistically related to the number of Title I children involved. The amount by which the capacity of such Non-Title I schools is reduced is determined by multiplying the number of Title I children by the factor .069.

GENERAL INFORMATION

1. Building Type

A - refers to buildings of incombustible materials throughout.

C - refers to buildings having exterior walls of masonry with interior framing above the first floor of wood or unprotected iron or steel.

AC etc. - refers to buildings of more than one type of construction. In this instance (AC), a part of the building is of A construction; the remainder is of C construction.

2. Title I Code

If marked X. refers to Title I school. The organization of regular classes in elementary schools in this category is based on the average of 29 children per class. The organization of regular classes in middle schools in this category has been outlined on Pages III and IV, above.

3. Enrollment

Refers to the number of children housed in the school building exclusive of any children housed in the school building exclusive of any children housed in annexes. Information on annexes is provided as a footnote. However, Col. 5, "Register In Building" does include the number of children housed in portable units and mini-schools (multi-unit temporary classrooms).

4. Capacity of Building

Does not include the capacity provided in portable units, mini-schools (Multi-unit temporary classrooms), Early Childhood Centers, rooms used by certain outside organizations, and fifth floor rooms of schools built prior to 1916 which have not undergone a modernization.

# INDEX

The letters at the top of columns indicate the boroughs, as follows; M-Manhattan; X-Bronx; K-Brooklyn; Q-Queens; S-Staten Island. The number under the borough letter indicates the page number. An asterisk indicates the school referred to is a junior high or intermediate school.

# UTILIZATION OF ELEMENTARY SCHOOL BUILDINGS AS OF OCTOBER 31, 1978

## EXPLANATORY NOTES

(SEE PRECEDING PAGE)

1/ P132--Does not include 11 rooms on the fifth floor.

2/ P173--Does not include 3 Kindergartens (register-140) housed at 4111 Broadway annex(Broadway Temple).

3/ P187--In computing the capacity of P-187, consideration has been given to the dual use of the building for elementary and sub-school purposes. Each portion of the building, i.e. elementary school and sub-school, have been considered separately in order to reflect the organization of each and the instructional space available to each. Four Grade 7 classes enrolling 120 pupils and four Grade 8 classes enrolling 127 pupils are currently housed in the P-187 Sub-School.

4/ P189--Does not include 11 multi-unit temporary classrooms.

5/ P192--Does not include 10 multi-unit temporary classrooms (unuseable due to fire damage).

(SEE PRECEDING PAGE)

1/ P282--Does not include 3 classes (register-20) housed at 64 Park Place annex.

2/ P307--In computing the capacity of P307, consideration has been given to the dual use of the building for elementary school and junior high school purposes. Each portion of the building, i.e.; elementary school and junior high school, has been considered separately in order to reflect the organization of each and the instructional space available to each. Six classes enrolling 197 pupils are currently housed in P307; these classes are an annex to J-265.
